HELPING IN THE CAUSE

NEW SHIPS FOR THE NAVY

Additions That Will Soon Be Made to Uncle Sam's War Fleet

Washington, Nov. 20.—As finally adopted, the United States naval increase contemplated for 1901 involves the building of 32 vessels, more than double that laid down in any previous year. Congress will be asked to authorize three 15,000 ton battleships, two 15,000 ton armored cruisers, six 2000 ton gunboats, ten 200 ton gunboats, three 15,000 ton colliers, one 7700 ton repair ship and one 7000 ton marine transport. The five fighting ships proposed are more formidable than any of the same category yet designed.

With the seventeen building or authorized and with the six battleships and two armored cruisers already in commission, they will give an offensive force of thirty ships.

The three colliers are designed to deliver on a single voyage from Norfolk 10,000 tons of coal at Manila, Guam, Pago Pago, or Hawaii. They will have sufficient speed to accompany a fleet of battleships on a long cruise.

MEAT TRUST

The census shows that there are 9,000,000 less cattle, 4,000,000 less hogs and 3,000,000 less sheep than in 1890. In view of this fact it is trusts that have put up the price on meat, or is it the general shortage and increase in population?
